QUESTION 1

a) As a Chief Technology Officer (CTO) of Niko Shoes Sdn Bhd, you are responsible for the implementation and monitoring of the SAP ERP system in your organization. After each successful purchase by a customer, a receipt will be issued and recorded by the ERP system. Your clerks are required to monitor these receipt sales via SAP ERP system. However, some of your clerks claim that the information of receipt sales is insignificant. Explain to your clerks what and why this information from receipt records would need to be available to Sales & Marketing, Finance & Accounting, Supply Chain Management, and Human Resource department.

(10 marks)

b) Hardware and software advancements have led to the development of ERP systems. Based on the chronological years of 1960s, 1970s, and 1980s, discuss the technological factors that have contributed to emergence of ERP systems.
